

A person's hands are visible, resting on a laptop keyboard. In the foreground, a tall, slender glass filled with sparkling wine and bubbles stands on a dark surface. The background is dark with warm, out-of-focus bokeh lights.

DUNAVOX

THE WINE COOLING EXPERT

RANGE OVERVIEW

IE 2023 - V3 - EURO

2 SPECIFICATION • CUSTOMISE

*Customising a unit impacts delivery delay by 7 - 14 days

3 THREE YEAR WARRANTY

Our wine cabinets are constructed using superior quality components enabling us to provide a 3 year part and labour warranty. Register online for a 5 year compressor warranty.

INTEGRATED VENTILATION

Standard with Gance and Soul, ventilation is within the appliance itself freeing your design from unsightly door gaps and an ugly plinth vent grille.

OVERLAY PANEL

Fully integrate a wine cooler into your kitchen by placing a furniture overlay panel onto the machine. View your wine through glass or hide it completely.

MULTI ZONE

Gain full control on storing different types of wine in separate temperature controlled zones. Opt from single, dual and triple zones.

ANTI VIBRATION

Compressors are mounted on four rubber bushes to minimise vibration especially during start and stop phases.

FLEXIBLE

We make wine cabinets in more heights and widths than any other manufacturer. No matter what your design we will have a unit to suit.

PUSH TO OPEN

For 100% handleless opt for a motor driven door activated by a gentle push at the top left corner.

TOUCH SCREEN

Our wine coolers feature LED or LCD displays with touch button controls.

MULTI LED

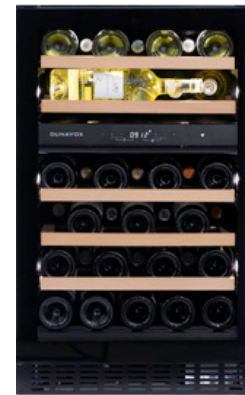

Many of our machines have a choice of 3 colours of LED internal lights enabling you to take control of the ambience of your space.

UV LIGHT PROTECTION

Wine doors have a special layer to minimise the effects of sunlight.

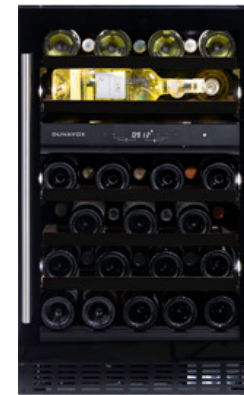

MATT BLACK

+ €179

Heat and detergent proof matt black outer coating available across the whole range of wine coolers.

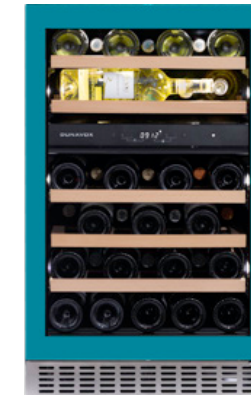

ALL BLACK

+ €299

Matt black door and ebony black tinted interior shelving.

RAL

+ €299

Touch to open models only. Colour is applied to a steel door so possible variance to adjacent furniture items. Lower vent remains steel, use furniture plinth.

TINTED SHELF

LIGHT OAK

MEDIUM OAK

ENGLISH OAK

DARK WALNUT

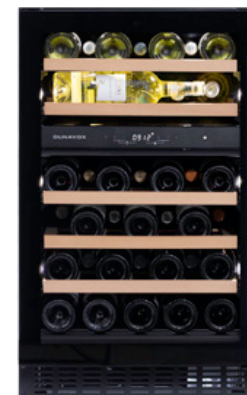

EBONY BLACK

Unit up to 885mm high: + €99

Unit over 885mm high: + €179

Existing beech shelf tinted in a choice of 5 shades, sanded then coated with a clear varnish

FACTORY DOOR REVERSAL

All machines RHH as standard
All wine coolers:

+ €59

BEVERAGE CAN CONVERSION

Perspex insert to support cans.
Applicable wine coolers:

+ €99 (Pack of 2)
